

Quality Policy

MP Engineering UK Limited is committed to Quality and considers it an integral part of the Company's Management System.

The policy of the Company is:

- To provide complete Customer satisfaction by meeting customer requirements & aiming to produce the highest quality product, on time, the first time, with a competitive price.
- To continually strive to improve our capabilities & process technologies, thereby always giving the best value to our Customers.
- To maintain an effective Quality Management System that is operated in accordance with the International standard AS9100D & ISO 9001:2015 and which meets all statutory, legal and regulatory requirements.
- To satisfy & enlarge our Customer base in order to enhance our long term profitability by supplying our high quality products & services, which conform to the specified requirements of our Customers.
- To ensure that this Quality policy & the Quality objectives are compatible with the strategic direction of the Company.

The Directors, Managers & staff at MP Engineering UK Ltd are responsible for maintaining high standards of quality & service in order to fulfil all our customer's expectations.

The Processes & documentation required to achieve these standards are described throughout the Company's Quality Management System & this Quality policy & the Quality objectives are communicated to all interested parties.

All of the above are regularly reviewed during Management Review to ensure their effectiveness & continual improvement.
